Education

Dr. A. P. J. Abdul Kalam Technical University

Bachelor of Technology in Computer Science and Engineering SGPA: 8.07

Oxford Public School [CBSE]

Intermediate [2021]: 81.2%

Carmel School [ICSE]

High School [2019]: 96.8%

Oct 2021 – July 2025

Ghaziabad, Uttar Pradesh, India

July 2019 – June 2021

Gorakhpur, Uttar Pradesh, India

July 2008 – March 2019

Gorakhpur, Uttar Pradesh, India

Relevant Coursework

- Data Structures and Algorithms
- Object-Oriented Programming
- Operating System
- Database Management System
- Software Engineering
- Web Technologies
- Computer Networks
- Design and Analysis of Algorithms
- Software Project Management

Experience

Adnecto Technologies

Feb 2024– March 2024

Full Stack Developer

Remote

- Leveraged **Google API** for authentication and **YouTube API** for multimedia content integration, boosting user login speed by 35% and increasing multimedia content accessibility by 30%.
- Utilized **Node.js**, **Express.js**, and **MongoDB** for back end development, enhancing data retrieval efficiency by 30%.
- Implemented design using **React.js** and **Next.js**, focusing on user-friendly interfaces, which improved user engagement by 25%.

Projects

Burgers Co | Node.js, Express, MongoDB

[Github](#)

- * Worked with **MVC frameworks** to develop robust and scalable back end, enhancing code maintainability by 25%.
- * Created **REST APIs** to retrieve and display data from databases, improving data access speed by 30%.
- * Enabled a 25% faster, **authentication and authorization** system with Express.js for efficient server-side development.
- * **Stripe API integration** for secure payment processing along with Product and order management.

EstateEase | MongoDB, Express, ReactJS, Node.js

[Github](#)

- * Developed a **real estate application** using the **MERN** stack to manage property listings, user authentication and interactive maps.
- * Designed a **responsive front end** with React.js, increasing user engagement by 40%.
- * Integrated **Google Maps API** for **location-based services** and geolocation, enhancing user experience by 35%.
- * Utilized **Socket.IO** for real-time chat features, facilitating instant communication between users and agents, improving user retention by 20%.

Technical Skills

Languages: JavaScript, C/C++, HTML, CSS

Frameworks: NodeJS, ExpressJS, ReactJS, Next.js

Databases: MongoDB, MySQL

Developer Tools: Visual Studio Code, Git, Postman

Libraries: Mongoose

Position Of Responsibility

Coordinator [Training And Placement Cell]

Oct 2022 – Present

- * Coordinated and executed over 60 campus recruitment drives and pool campus drives, along with 15+ training programs, workshops, and seminars annually.
- * Collaborated with 500+ students, 20+ faculty members, and numerous industry professionals.

Volunteering in NayePankh Foundation.

Certifications

Mastering Data Structures & Algorithms using C and C++

Oct 2023

Udemy
